

BATTLE HYMN FOR DEMOCRACY

(Sung to the tune of “Battle Hymn of the Republic” by Julia Ward Howe)

Mine eyes have seen the horror of the MAGA overlord
He is trampling on our freedoms 'til they cannot be restored
He has loosed his racist puppets, every principle ignored
His hatred's marching on

He spews venom on Truth Social in the middle of the night
His minions in the Congress let him take away ev'ry right
You aren't safe to walk the streets unless you're wealthy or you're white
His vileness marches on

*[Chorus] Glory glory hallelujah
Glory glory hallelujah
Glory glory hallelujah
United we are strong*

Farmers lose their livelihood; no crops are used for aid
Universities lose funding; cancer research won't be paid
Federal agencies and PBS succumbed to DOGE's raid
Their greed is marching on

They take away our health care with their one big ugly bill
So the poor will starve and sicken, but the wealthy get their fill
And we're helpless to oppose these corrupt puppets on the Hill
Their lawlessness goes on

[Chorus]

Project 2025 is playing out before our eyes
The Dems sounded the warning bells, but voters fell for lies
Now the country has become something the honorable despise
All decency is gone

Eight million of us marched to protest everything he's done
So he demo'd half the White House, and dumped poop on everyone
He ended aid for U.S. families, but his cronies he can fund
His grift and lies go on

[Chorus]

If “We, the People” band together, can we stop them with our might?
Is the constitution strong enough to aid us and our plight?
Will the military honor it and join us in the fight?
Our unity is strong

Vote these traitors out of office; revoke everything they've done
Show the power of your purse and boycott those who helped them run
We must take our country back again; the fascists haven't won
United we are strong

*[Chorus] Glory glory hallelujah
Glory glory hallelujah
Glory glory hallelujah
United we are strong*
